

Guest Speakers

April Renée

Keynote speaker for VIC (Vaccine Injury Coalition) & former President of TAAP (The Autism Autoimmunity Project). After the loss of her vaccine injured autistic daughter, she embarked on a mission to expose the cause of all “labels” such as Autism, ADD, ADHD, Diabetes, Arthritis, Depression, MS, Endometriosis, ALS, Fibromyalgia and Cancer.

&

Gary L. Tunsky, CNC

Cellular Disease Specialist

International speaker/author and represents (PHT) Precision Healing Technologies. He is a traditional naturopath and has a 24-year diverse background in a wide array of healing arts.

He has opened up new doors to the world of customized human cell restoration treatment protocols and applies strategies for full body detoxification, herbology, heavy metal chelation, oxygen/ozone therapy, homeopathy, vibrational/energy medicine, immune modulation therapy, pH modulation, metabolic typing and biological response modifiers. His non-toxic, non-invasive cellular treatment strategies are directed to a wide spectrum of degenerative, metabolic and autoimmune disorders that are so prevalent in the 21st century.
